HOW TO FILL THIS IN

For each line: try it (the Manual's matching chapter shows how), then tick one box — ✓ works · ✕ broken · ? confusing · – skipped. Anything ✕ or ?: scribble a note (what you did → what happened) and log juicy ones in the dashboard's **Issues** tab with the line's ID.

Mission II · Manual p. 9 · build loaded!

I ASKED: _____

Used MY build? ☐ yes ☐ no · Answered fully? ☐ yes ☐ no · Speed: ☐ snappy ☐ slow ☐ forever · Quality: 1 2 3 4 5

I ASKED: _____

Finished the whole answer? ☐ yes ☐ no · Stayed organized? ☐ yes ☐ no · Invented anything suspicious? ☐ yes ☐ no · Quality: 1 2 3 4 5

THE ABUSE ROUND (tick what you tried; note anything that lagged, mixed up builds, or died)

- | | |
|---|---|
| ☐ Interrupted the Orb mid-answer with a new question | ☐ Asked 3 questions back-to-back, fast |
| ☐ Opened every dashboard tab, then resized the window wildly | ☐ Pasted a huge build code into the chat |
| ☐ Switched characters mid-conversation, then asked a follow-up | ☐ Left Kalandra running the entire session |

Mission III · Manual p. 10

For each check: ask the Orb, then check the authority. Verdict: **M** = match · **C** = close (right idea, numbers a bit off) · **W** = wrong. When it's **W** — flag the answer in chat, too.
